Health Check

Tap ‘Health Check’ to detect your health data, such as fatigue level, blood oxygen, microcirculation, heart rate and HRV. Pick up the health sensor and make sure the sensor is paired to the chair.

*** Follow the steps showing in the controller to start health detection. And please hold the sensor naturally and do not release the sensor until it tells you complete the detection.**

*** After the detection, you can see your health data through the controller. And you can tap ‘Start Massge’ to enjoy your personnaly health check massage program.**

Stretch Massage

Everyone is unique. That's why we offer you the flexibility to tailor your stretch massage to your individual requirements. Simply choose the area you'd like to stretch.

***Simply tap to select the areas that you want to stretch. And adjust the heating according to your personal preference. Then tap 'Start Now' to begin the stretching massage program.**

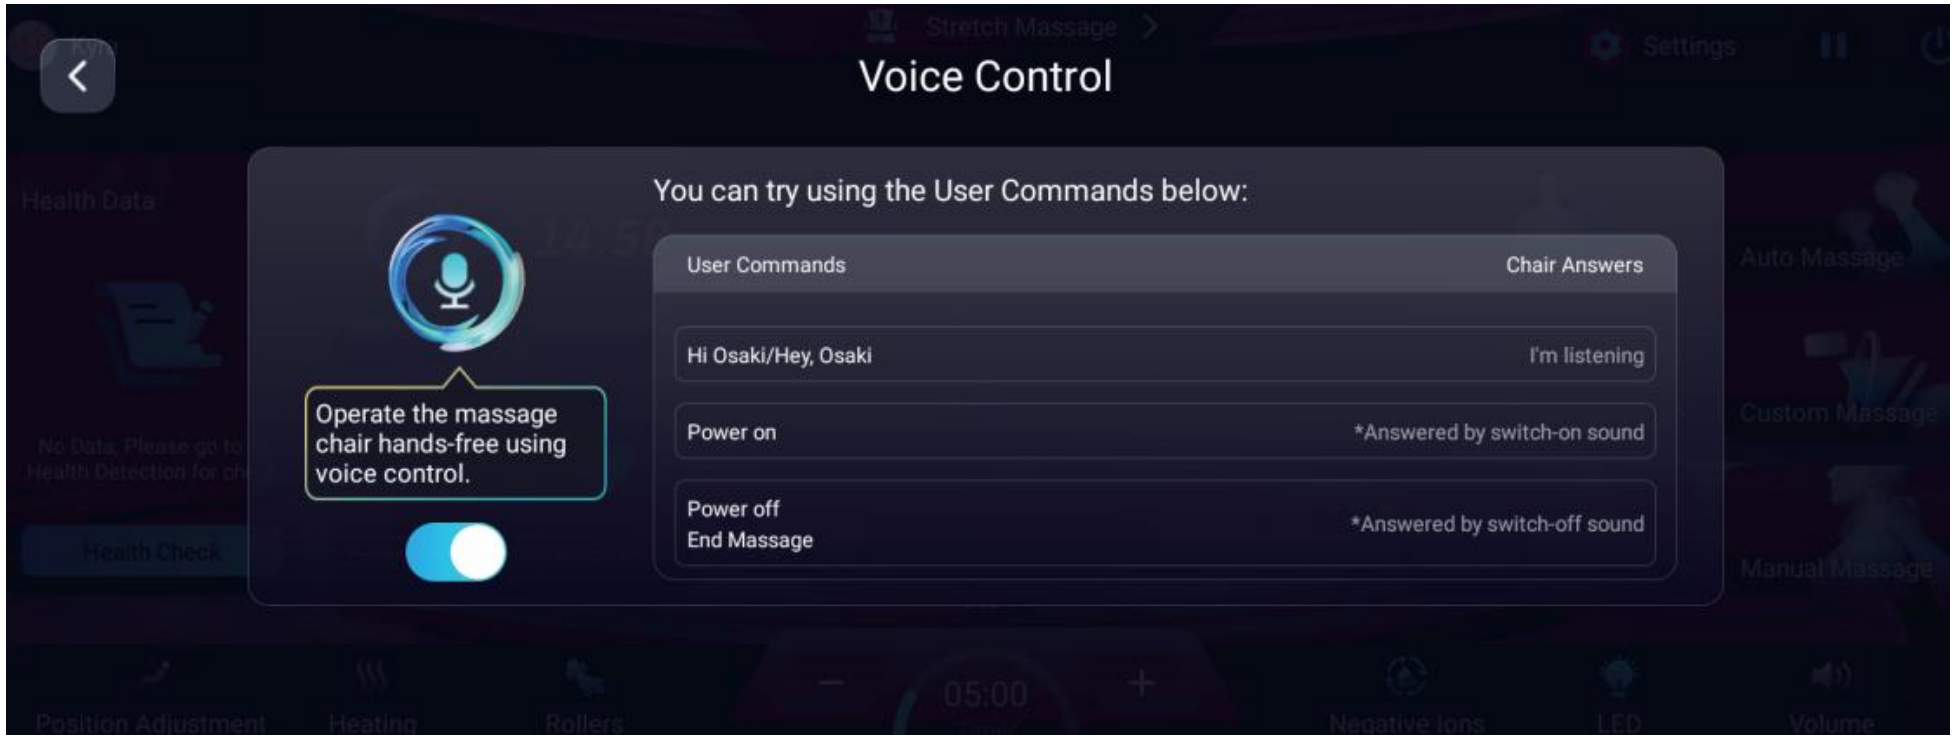
Health Data

Here you can see your personal health data after having the ‘Health Check’ function which is more intuitively and clearly.

*** If you think you would like to have the health check again, you can tap 'One Touch Optimize'. Also, through tapping 'View Report', you can directly see your fatigue level, blood oxygen, microcirculation, heart rate and HRV.**

Voice Control

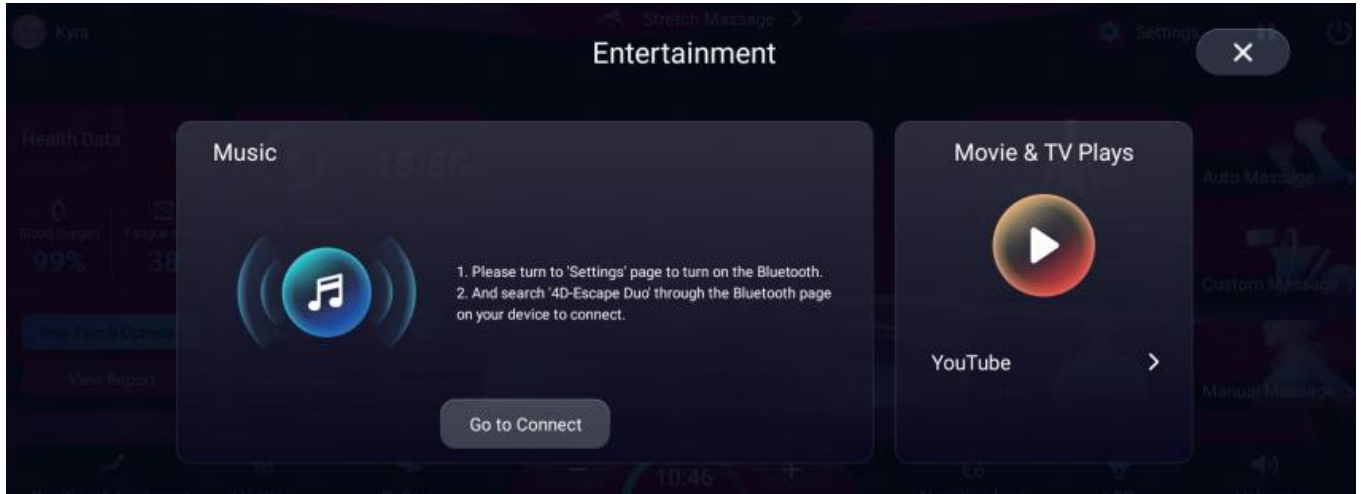
This chair is designed with care, providing you with intelligent voice control so that you can start the massage with your hands free.



***You should make sure you turn on the voice control function.**

Entertainment

Tap ‘Entertainment’ to connect the bluetooth and experience the extraordinary and fantastic sound from the Monster Speakers. Tap ‘YouTube’ to watch movie and TV series online.



Favorites

Tap ‘Favorites’ to find your favorite programs and experience.

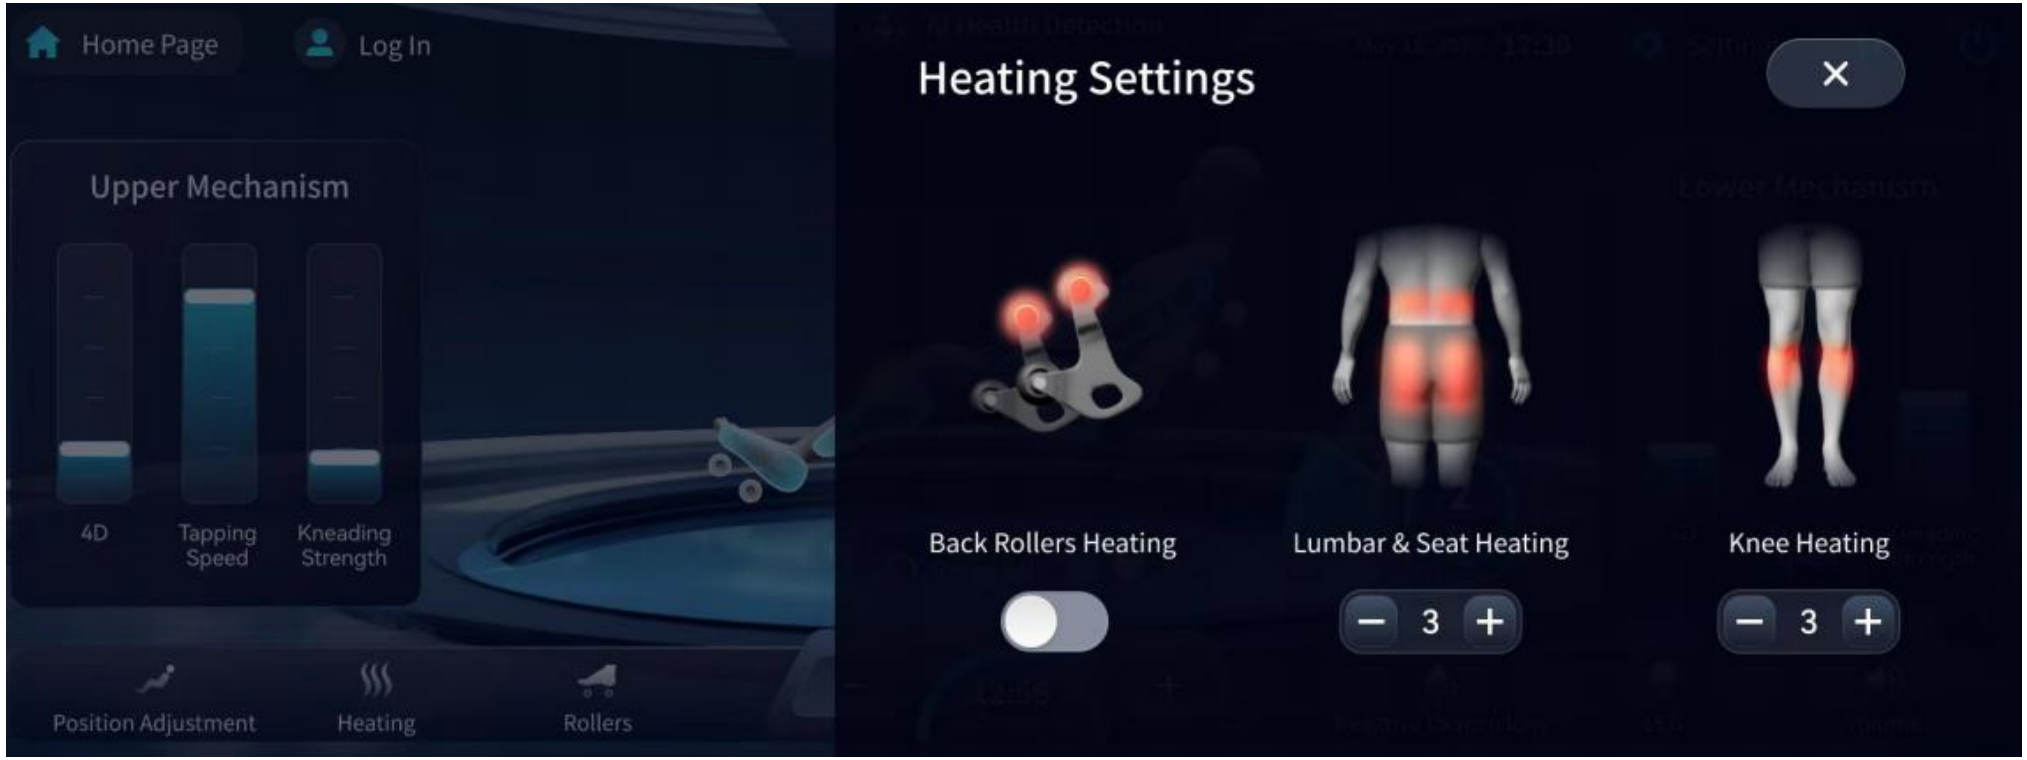
Position Adjustment

Tap to adjust your chair’s position.

*** When there’s a stretch massage action running, you cannot adjust any positions.**

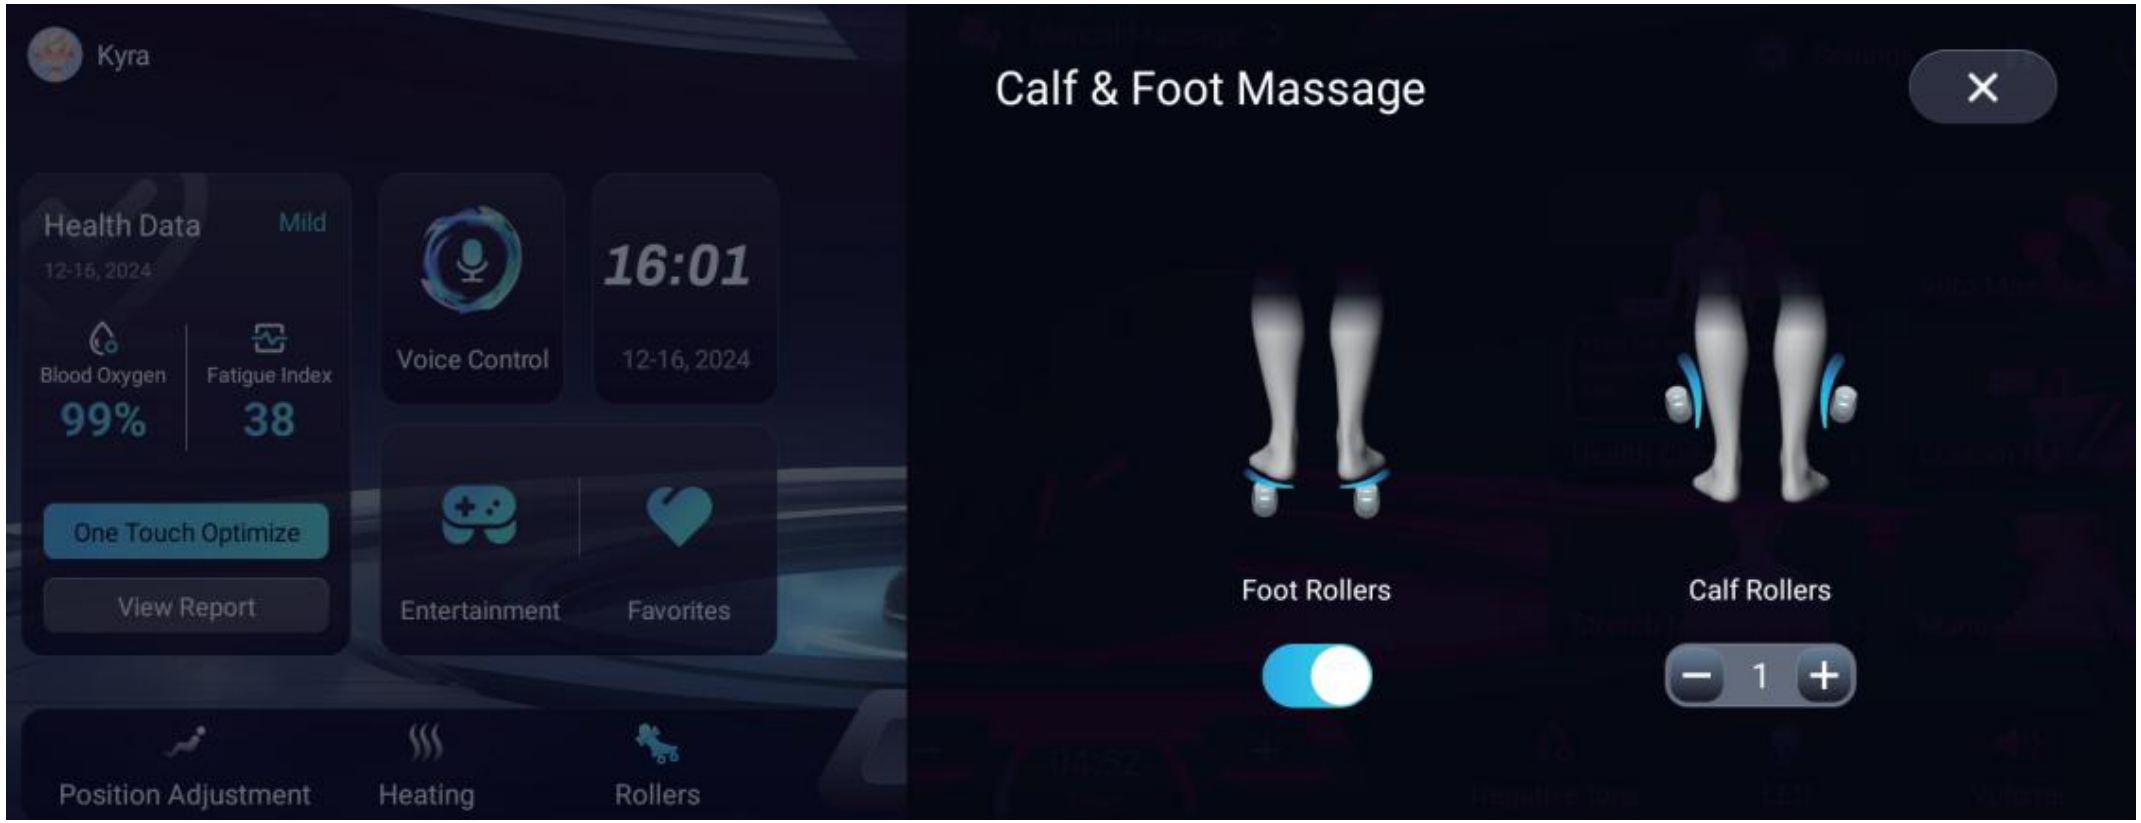
Heating Settings

Set the heating functions according to your personal preference.



Calf & Foot Massage

Tap to control the foot rollers and adjust the calf scraping levels.



LED Settings

Tap to choose your desired side panel light color from the 8 LED colors.
